

01/14/21

I am sure that you all have been missing my updates. 😊

We all had a good time at Gary's place yesterday helping with a couple of engine related things. Even with all of the BS going on we actually got the 1964 Chevelle 220 hp 283 V-8 running that hadn't been started in 15 years. It had been sitting in a garage in Oklahoma after being pulled out of a 1964 Chevelle. It was an all original engine and it started up and ran like it had been started yesterday. What fun that was.

We also helped Gary check out an LS engine that he bought from some crooked individual. That should tell you how that turned out.

Doug provided a grill and brats while Gary supplied the place to be at, potato salad and some chips. I think everyone else brought their own cold drinks.

It was a good day.

I am not sure what we are going to do for a meeting spot in the next couple of months but as soon as we figure it out I will let you know.

For now we have decided that we are not going to have a meeting in January.

The Midwest Chevelle Regionals for 2021 is on hold at the moment. It looks like Heartland Chevelle Club might not be able to do it because hotels are not taking reservations at this time.

We might be able to have something going on later this month and I will keep you informed as we figure out what to do. For now we probably need to stay home and get this Covid crap behind us.

Ron Fleming let me know that Mid America Dragway (MAD) has a lot of things planned for 2021. I don't remember everything that he told me but I think that he said that they are going to have two swap meets, at least two car shows and lots of racing events.

He also said that the Norwich show and the Anthony Car Show (I think) are going on.

If you know of any shows that are going to be going on, please let me know.

Does anyone know if Daryl is putting out a "CARS Cruzin 21 Calendar of Events"?

You probably already know that the Cars For Charity Show was cancelled.

I don't have a bunch of events to list at this time but I will make a list as soon as I start receiving some. I am sure that we will meet at Richard's little Dairy Queen again in 2021 but for now it is closed for the winter.

We all know what is going on in the U.S. and the world these days so please do everything that you can to help protect our freedoms.

That is all for now.
I hope to see all of you soon.

A dog had his chain reduced one link at a time, every few days, until his chain was so short he could barely move. He never resisted because he was conditioned to the loss of his freedom slowly, over time. It's happening to Americans.
