

02/08/21

WACO family and Friends

The last WACO Luncheon turned out real good even though I didn't let people know until the last minute. We had 10-12 people there, Spears put us in a room basically by ourselves and the free pie was very good. You should have been there.

Here is a note from one of our members, Bill Washburn, passing along a little bit of comedy from the internet. Car Names Comedian, see attachment. I hope that it works. 😊

Doug's Corner:

Caught the Chevelle's talking trash:

Well its umpteen degrees cold and snowing this morning and I went out in the garage to do a few things. And immediately I sensed something strange. The song, "The Ride" by David Allen Coe was playing softly and I noticed my Chevelle radio was glowing, glad it's on a battery tender. As I got closer I saw it was locked on to AM. I walked up to some sort of program where my Chevelle was talking over the air waves. I don't know how far AM reaches but realized she was talking to a network of other Chevelle's. "I remember the days before we cared about salt lighting reduction (rust holes). My owner jumped in me and fired me up, zinc vitamins and all, every day and every cold morning you can think on, rain to boot, drove me everywhere. None of these new radials, good old bias-ply tires. Were you abused regularly by my owner's son when he got the keys? Half a mile from the house a regular smoke show! And now? Oh it's my 70 year old owner. But now it's on big ol' radials with an array of power adders. You know cams, manifolds, puffers out to blowers. And now we got Nitrous. Wow its Viagra for cars!" Another Chevelle piped in about a wiring-otomy it had a few years back. "Some are successful and others not, depends on the wiring surgeon I guess." If that front seat could talk, car fumes and perfumes you know. One of those touring models spoke up on a trip on Route 66 thru the Grand Canyon and onward to California. That sparked another telling about how happy his dog was to hang his head out in the wind. Then the roundy rounder days and all of the ¼ mile hot spots they spent time at. "I can't believe I didn't like history class back in the day." It was all about the party back in the day, lots of bars and night life, car seats and raising families, picnics, cruising, time at the lake, power tours and car shows. "Darn I wish it would warm up, I miss those days."

"Wake up Doug you were dreaming!"

Doug

PS I added the link for the song

For any of you who need a contact so that you can buy your ticket for the **raffle of the 1959 El Camino** here you go: My Lodge is doing this raffle as a fundraiser. It's for a

1959 El Camino. Tickets are \$20 per ticket. You do not have to be present to win. For more information or to donate for the raffle please call me 316-210-9539. Thanks Bro Gerald Allen.

David Hime, with Dale's help, has started a new spot on our web site.

<http://www.wichitachevelle.com/services/index.html>

You will find it under "Sponsors / Services and it is called "Local Services". We do not have much under it so far but with your help we can get some names listed. If you have a favorite shop that you like to use, a favorite parts store, a restoration shop or just about anything car related that you would recommend that others use then please send the information to David Hime at A T & T Yahoo Mail dhime@sbcglobal.net or give him a call at 316-371-7100. He will need the name, address, web site and phone number of the business you would like to list. Give him what ever information that you have. It could be a good place that you buy from on the internet if you have one to recommend. This could be helpful to all of us.

Richard Kinney is looking for a little help on his project a 1969 El Camino. Have any of the club members replaced their dash pad? I am looking for recommendations or tips to be aware of before choosing a vender. I have done some searching and have found several that appear to have different manufacturers but I wonder if the source is the same and the seller company just put their name on it. One place did mention that the main structure underneath the padding is fiberglass, but the other ones I looked at made no mention about what is underneath the padding.

Thank you, Richard 316-644-6909, sukeban_deka@juno.com

Here is some wisdom from one our members.

Amazing Simple Home Remedies

1. If you are choking on an ice cube, simply pour a cup of boiling water down your throat. PRESTO! The blockage will instantly remove itself.
2. Avoid cutting yourself when slicing vegetables by getting someone else to hold the vegetables while you chop.
3. Avoid arguments about the toilet seat...Use the sink.
4. For high blood pressure sufferers~~Simply cut yourself and bleed a few minutes., thus reducing the pressure on your veins. REMEMBER TO USE A TIMER.
5. A mouse trap placed on top of your alarm clock will prevent you from rolling over and going back to sleep after you hit the snooze button.
6. If you have a bad cough, take a large dose of laxatives. Then you will be afraid to cough at all.
7. You only need 2 tools in life.....WD-40 and duct tape. If it doesn't move and should, use WD-40....If it moves and shouldn't, use the tape.
8. Remember- Everyone seems normal until you get to know them.
9. If you can't fix it with a hammer, you've got an electrical problem.

AND A DAILY THOUGHT. SOME PEOPLE ARE LIKE SLINKIES....NOT REALLY GOOD FOR ANYTHING, BUT THEY BRING A SMILE TO YOUR FACE WHEN PUSHED DOWN THE STAIRS.

It is great to see that some of you are already mailing in your yearly dues for 2021. Most of our members renew their membership in the first quarter of each year. We will get past all of this covid crap and get back to doing a lot of car activities. Thank You for keeping your interest in WACO and all of the things that we try to do.

Mail to: WACO 7550 N Greenwich Wichita KS 67226.

I am not sure what we are going to do for a meeting spot in the next couple of months but as soon as we figure it out I will let you know.

For now we have decided that we are not going to have a meeting in February.

We might be able to have something going on later this month and I will keep you informed as we figure out what to do. For now we probably need to stay home and get this Covid crap behind us.

I am sure that we will meet at Richard's little Dairy Queen again in 2021 but for now it is closed for the winter.

That is all for now.

I hope to see all of you soon.
