

07/10/22

### **WACO family and Friends;**

I was not able to attend the last meeting but it sounded like you all had a great time with 30 people in attendance. WOW.

Becky did a great job with the minutes so please make sure that you read them to get all of the good current information.

It sounds like the body got lifted off of the frame successfully at Mike's just before the meeting started. I am sure that Mike was grateful for all of the help.

The reports indicate that we had some good show and tell items again this time and I missed out.

It looks like plans have been made for the **cruise to Saline** to visit The Garage Automobile Museum. **Saturday the 16<sup>th</sup>** was the date that was chosen for the Salina cruise.

The plans are to meet at the rest stop that is just North of Wichita on 135 approximately 1-2 miles North of 125<sup>th</sup> street North at **9:00 am**. They want to try and leave from there as close to 9:00 as possible. If you are running a little behind please call David Hime to let him know or just proceed on to the car museum. I will send out more information later this week.

Like David mentioned at the meeting, if it is too hot to drive a non-air conditioned Chevelle then just drive your favorite daily driver.

We had a lot of people at the meeting say they were going to go so it should be a good turnout for the event.

More information from Becky: We will meet at the Rest area just north of the Sedgwick county line and be ready to leave from there at 9AM that Saturday. We took a head count of people that could go that day and had 18 hands shown. So I called The Garage and asked how we could get the group rate since we had more than 15 people. The lady that I talked to said that we could get in for \$12 instead of the \$15 rate. I told her when we were coming and she said that unless we had 50-100 people coming that it didn't matter when we came but that if we had that many people she would need to schedule more staff for the day. She said that we could either have one person pay or have each individual pay. I told her that I thought we would let each individual pay on their own.

After we tour the museum we can go to eat together if you want to. It sounds like there will be several places that we can choose from. More good information from Becky: Brad Wisdom's girlfriend suggested that after the museum that we could eat at a place called Martinelli's Little Italy located at 158 S. Santa Fe. She said it has very good food. I had found at least 3 other places that we could eat as well before when I was researching our cruise ideas. One is the Cozy Inn. They specialize in tiny burgers. But it has no inside eating area so if it is hot that might not work so well. Another possibility would be Russell's Restaurant which I think most of the club is familiar with. Then I also saw good reviews for a place called Hickory Hut- Serious BBQ. So not sure where you would like to go but those are some possibilities anyway.

It was also suggested that we go to Richard's Little **DQ** a time or two before he sells the place in case the new owners don't make us feel as welcome as Richard does. We are going to set up a time for this Wednesday evening at 7:00 pm. It is one of the coolest days of the week so we should have a pleasant evening for some ice cream.

Karl pointed out to me the other day that we need to work on our cruise plans to attend the **Regionals** in KC this year. Think about what you want to do. My plans so far are to cruise up on Friday morning and probably return Saturday evening. What do you want to do?

Don't forget to **bring your show and tell item** to the next meeting. It does not have to be a car related item it just needs to be educational or an interesting item.

I am sure that all of our members know of at least one interesting thing that they can show other members and / or teach members about. Think about things that you can share and then do it.

Did all of you see the article in the "Active Age" paper that many of us receive? Both Dan and Karl pointed it out to me. It is a well done article that you need to check out.

If you go to their web site [www.theactiveage.com](http://www.theactiveage.com) you should be able to see the article when they get it posted, it is in the July 2022 issue which does not appear to be posted yet <https://theactiveage.com/current-issue/>.

Below under CAR Shows I have put two links that will show you most of the shows that are going on this year. We are heading into a very busy season.

We need a small fuel cell for the WACO engine start cart. If you have one that you would like to donate or sell cheap, please let me know.

I would like to ask WACO members to please let me know which car shows or other events that you are going to on any given weekend so that I can let other members know in case they want to join you.

I think it is great when members send out e-mails to other members to let them know what fun shows they see coming up. Please continue this.

Here is what Kevin Clark is up to this year so far. Just letting you know that I'm sending in my registration for the Midwest regional car show. I will spend Friday night across the street at a hotel. Then drive home Saturday after the show. I would also like to attend the Council Grove car show on June 18th. I've already made lodging reservations for the Colorado Good Guys car show in September. I also plan on attending the Lake Afton show. I would like to work in a short trip down route 66 yet this summer. The Howard car cruise was enjoyable. Nice to see the cars going down the highway together. Thank you for everything you do for the club. Kevin Clark

James Oliphant sent me this link to an interesting car show at a small airport out in West Wichita. See attached. This looks to be interesting. At Dead Cow International. James

#### **Needed or For Sale items:**

JR has a few parts for sale if anyone is interested. I have few items I'm selling, 1969 Chevelle OEM front bumper with brackets... Fair condition...Will need be refurbished for show quality... \$100...316-204-9910 call or text... Thanks JR

Micks next door neighbor has a 1967 327 For Sale. It is complete from the carb to the oil pan, you can hear it run, it has the double hump heads on it and a mild cam in it. If you are interested, please give Mick a call 316-350-0068.

Mick said he is looking for some 1968 big block heads for a 396 to put on his motor.

Steve Steigerwald is looking for a couple of items. He needs / wants, a 1" rear sway bar for his 1965 Chevelle wagon. I think they fit all of the Chevelle's from 64 through 72. I think the original one was 7/8" but I am not positive on that. Steve 814-573-2215 or [steigerw@mdvl.net](mailto:steigerw@mdvl.net)

Doug came up with an interesting car, if anyone is interested.

David I had a neighbor come by yesterday with a 1965 Tempest 4 door. The car has original light turquoise paint, its straight no damage.

Appears to always garaged. He was telling me the 326 has been rebuilt car is showing 96000 original miles. He is asking \$6500 and is negotiable. I told him I would let our club know about it. The car appeared to be in very good condition. Doug 316-832-1028

Matt Endsley has a few parts that he would like to sell if you have a car that matches.

Hi David,

I was wondering if you could get this out to all the club members and see if there is any interest before I list these parts publicly.

I purchased rear brakes for a 2016 Chevy Traverse AWD because I was told by the shop that was doing the servicing on our car needed rear brakes but before I could install them we traded the car and it was too late to return the parts. They are Wagner QC883 ThermoQuiet ceramic rear disc pads and Wagner BD126503E rotors, they also fit the following vehicles: I copied this list off of Carid:

Brake pads

Buick 08-17 Enclave, Buick 04-07 Ranier, Cadillac 13-15 XTS, 03-06 Chevy SSR, 02-09 Trailblazer, 09-10 & 12-17 Traverse, GMC 12-17 Acadia, 02-09 Envoy,

Isuzu 03-08 Ascender, Oldsmobile 02-04 Bravada, Saab 05-09 9-7X, Saturn 07-09 Outlook

Rotors

Buick 08-17 Enclave, Chevy 09-17 Traverse, GMC 07-17 Acadia, Saturn 07-10 Outlook

Asking \$50.00 for everything

Thanks, Matt [matthewendsley@hotmail.com](mailto:matthewendsley@hotmail.com)
